The above estimated total expenses are used to help plan and prepare for the program, as well as calculate eligibility for financial aid. Not all students will incur all the expenses above. Note that the last line is not considered a necessary expense and is not included in the total for financial aid purposes. All amounts listed are estimates and subject to change depending on international economic factors, past participant reports, and on-site staff reports. Student expenditures in-country depend greatly on personal spending habits, post- or during-program travel, and available funds.
