COURSE DESCRIPTION
This course provides an integrative framework for understanding the business and legal challenges that are associated with effective workforce management around the world. As more and more companies try to leverage the benefits of a global labour market, it is critical to understand the challenges that managers must deal with as they try to coordinate work practices across country settings and prepare individuals for global assignments. Toward that end, we will examine how international labour markets compare in terms of labour costs, labour supply, workplace culture, and employment law. High-profile news events from developed and emerging economies will be used to illustrate the complex cultural and regulatory environment that multinational firms face in such areas as talent management, performance management, offshore outsourcing, downsizing and industrial relations. The last segment will focus on the individual and organizational factors that promote successful global assignments.

With its global presence, CAPA offers students the opportunity to enrich their academic experience by exploring the localized context, in this case, Australia and the Asia Pacific. As outsourcing and offshoring expands into the professions, the emerging role of large populations of highly educated youth in developing countries in the region is changing the face of employment opportunities in developed countries such as Australia and the USA. In addition, as Australian companies expand into the region developing an Asia ‘capability’ including language and inter-cultural competencies, becomes critical. These issues and others are explored in the course.

COURSE OBJECTIVES
The course aims to equip students with the ability to recognize the diversity in the global workforce that global firms face in today's increasingly complex and unstable world. It provides a comprehensive understanding of the ways multinational corporations can successfully integrate and draw on the talent available across the globe.

LEARNING OUTCOMES
Following completion of this course, students should be able to:

• Demonstrate an understanding of the key management issues arising from globalization of the workforce;
• Have an appreciation of the macro and micro context within which global human resource management (HRM) operates;
• Define the key terms in global HRM;
• Outline the difference between domestic and global HRM;
• Explain how global growth places additional demands on management;
• Understand and apply the requirements for global recruitment and selection;
• Analyse the issues surrounding global performance management;
• Recognize the differences between host and foreign nationals and other culture perspectives in managing an international workforce;
• Identify the issues related to future workplace in developing and developed countries.

COURSE PREREQUISITES
There are no prerequisites. Students from a variety of backgrounds and interests are encouraged to take this class.

METHODOLOGY
This class will be participative and will require students to contribute individually and as part of a team. The course content and delivery will create a framework where students reflect critically on the weekly discussion topics. The
students will be expected to devote an hour per day keeping up with the current global issues in international business, politics and society. Expected reading sources should include The Economist, Financial Times and The New York Times. The teaching and learning methods will be a blend of the following:

- Lectures
- Reflections & observations
- Readings on current topics
- Class discussions and case studies
- Student presentations and two research papers.

MYEDUCATION REQUIREMENT
Students are encouraged to participate in events/activities from the CAPA Sydney MyEDUCATION calendar to broaden understanding of this subject in the context of Sydney and Australia. Students will be asked to draw on these experiences in one or more learning activities within this course. In addition the course includes field classes, which also count towards MyED.

GRADING
CAPA PROGRAM AND INSTRUCTOR POLICY
The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic course depends upon the absolute integrity of the work done by the student, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work and class behavior. This means to gain full attendance you must attend all classes, you must not be late (unless with a valid reason) and you must be respectful of the professor and of other students by not talking/whispering in class when others are talking or presenting. Persistent lateness or lack of attention in class, i.e., reading materials other than the work assigned, may result in a low or zero grade for participation, and possible referral to the CAO. No electronic equipment will be used in class, including laptops, phones, ipods, cell phones, etc, unless you have written permission from the Chief Academic Officer prior to the course. If you are caught using any electronic equipment, you may receive a zero grade for participation.

Plagiarism will be dealt with very seriously, and will be referred to the Chief Academic Officer in London. You may receive an F for the course. If all work is not submitted by the end of the program, you will receive an F for the course.

CLASS PARTICIPATION AND ATTENDANCE
Attendance at all classes is mandated by CAPA; students who miss a class without permission from CAPA’s Chief Academic Officer will have their grade for the course lowered. Informed participation is expected in every class, so students must have read the full assignment carefully before coming and be ready to discuss it if called upon. At any meeting there may be a brief, pass-fail two-minute quiz on some utterly obvious fact in the assigned reading. Students will also be asked to complete informal in-class writing assignments on a regular basis, which will require them to demonstrate their familiarity with the assigned materials. Students who repeatedly demonstrate unsatisfactory performance on these quizzes and exercises will be penalized in the participation grade.

**RESEARCH PAPER AND CLASS PRESENTATION (3,000 WORDS, +/- 10%)**  
Select any one of the topics that we will be covering in this course. Bear in mind that these topics/chapters are rather broad and you will need to narrow down your research topic significantly. You should identify a small aspect of the theoretical discussion that interests you and focus sharply on it. In other words, you should not be providing a general overview of the chapter(s). Topics should be approached from the localized perspective of the Australia and the Asia Pacific region. These research paper topics should be discussed with the lecturer in advance.

The next step is to identify a case study or identify sufficient data that fits your selected topic. You may choose current or recent global HRM events or alternatively examine an event/s from a historical perspective. The course outline provides you ample guidance on sources of such data.

The final step will be to provide a thorough analysis. How does the case study or evidence fit into the theoretical discussion? Are the facts consistent with the theory? Explain why (or why not). What lessons did you learn from this project? This analysis will carry the highest weight for this assignment.
To obtain an ‘A’ grade, the submission will have to meet three requirements: (1) theoretical discussion; (2) good presentation of case study; and (3) thorough analysis. Any submissions that do not meet all the criteria will be downgraded.

You will provide 3 status updates (online) through the term on the progress you have made to date on your projects. This will enable the lecturer to provide you with the necessary guidance and feedback. It is important that you come well prepared for these status updates.

The presentation in week 11 should provide an outline of your essay, the theoretical background, data and findings of your case study and the conclusions. Please note that this presentation should be limited to 5 slides and 10 minutes. There will be a short Q & A session following the presentation.

**MID-TERM & FINAL EXAMS**
The mid-term and final exams will include a combination of short essay questions and multiple-choice questions. Each exam will cover half of the course content.

**ATTENDANCE POLICY**
Regular attendance and punctuality are mandatory in order to earn full marks. The final grade will take into consideration preparation required for class (i.e. readings) and participation in class discussions. If you miss any meetings without an excused absence from the on-site director, your final grade will be dropped accordingly. In the case of absences, it is the student’s responsibility to find out what information was given in class including any announcements made.

**UNIVERSITY OF MINNESOTA POLICIES AND PROCEDURES**
Academic integrity is essential to a positive teaching and learning environment. All students enrolled in University courses are expected to complete coursework responsibilities with fairness and honesty. Failure to do so by seeking unfair advantage over others or misrepresenting someone else’s work as your own, can result in disciplinary action. The University Student Conduct Code defines scholastic dishonesty as follows:

**SCHOLASTIC DISHONESTY**
Scholastic dishonesty means plagiarizing; cheating on assignments or examinations; engaging in unauthorized collaboration on academic work; taking, acquiring, or using test materials without faculty permission; submitting false or incomplete records of academic achievement; acting alone or in cooperation with another to falsify records or to obtain dishonestly grades, honors, awards, or professional endorsement; altering forgery, or misusing a University academic record; or fabricating or falsifying data, research procedures, or data analysis.

Within this course, a student responsible for scholastic dishonesty can be assigned a penalty up to and including an “F” or “N” for the course. If you have any questions regarding the expectations for a specific assignment or exam, ask.

**STUDENT CONDUCT**
The University of Minnesota has specific policies concerning student conduct and student needs. This information can be found on the Learning Abroad Center website.
