ASSESSMENT

a) First half of the course (Aboriginal Population of Argentina BC to 19th century art and architecture): paper describing one of the sites or institution visited during the course study. The paper must include an architectural description of the building/site (including historical references), purpose of the building (e.g. museum, church, government house, etc.) and its importance as a landmark. The paper will be graded considering the overall description, terminology, research as well as editing and grammar.

b) 20th century and contemporary art: brief written text, where the students will be asked to compare two different art pieces from two different preeminent Argentine masters. Students will also be provided with the images of those art pieces and given a half hour to write about them. Students will be asked to find differences and similarities in subject matter, concerns and styles. There will also be an interview for students to talk about their writing. Understanding of basic notions in terms of period, styles and artists’ concerns as a reflection of events of the times will be key. The right use of the arts vocabulary and jargon will also be in serious consideration, and students will be made aware of this during the course.
